The goal of the French program is to enable students to function in a French milieu and develop an appreciation for its language and culture. Because students arrive in secondary one with different levels, they are streamed into their respective program, according to their French placement Exam results. Each group is challenged with materials adapted to the students' *abilities*. *As they progress, complexities and new concepts* are added to the basic learned in year one.

Using a spiral approach, this course constantly reviews acquired concepts and focuses on sentence structure (phrase de base), narrative and descriptive texts, reading novels or theme based books, varied oral presentations integrating learned grammatical concepts. Emphasis is placed on 3 competencies: -interagir en français, -lire des textes variés en français, -produire des textes variés en français.

Constant effort and participation are the keys to success. The language of exchange, in class, must always be "la langue de Molière", in order to create a stimulating and learning French environment.
