

SECONDARY 5
NATURAL SCIENCE MATHEMATICS
-Honours Section-
(2019-2020)

COURSE OUTLINE

Instructor: Mr. Wesley Sanders

Email: sandersw@loyola.ca

Phone: 514-486-1101 Ext 624

COURSE TOPICS

1. Vectors
2. Real Functions
3. Conics
4. Optimization
5. Exponential & Logarithm Function
6. Trigonometry

STUDENT RESOURCES

- Math-Help-Services.com
- Teacher Hand-Outs
- Class Notes

REQUIRED STUDENT MATERIAL

- 3-ring binder
- Graph paper & loose leaf
- Scientific calculator
- Pencils and eraser
- Ruler and Protractor

COMPETENCY 1: Situational Problem

Term 1 (20%) Term 2 (20%) Term 3 (60 %)	There will be one situational problem per term.
---	---

COMPETENCY 2: Reasoning

Term 1 (20%) Term 2 (20%) Term 3 (60 %)	10% Homework 90% Tests
---	---------------------------

FINAL MARK FOR EACH TERM

COMPETENCY 1	Solves a Situational Problem	30 %
COMPETENCY 2	Reasoning and Communication	70 %

EXTRA HELP

Extra help is offered as often as the student needs/wants. I am willing to meet before school, at lunch or after school. All the student need do is talk to me or email me to arrange a mutually convenient time.

ABSENCES

Students absent from class for any reason are responsible to make up the work missed. They may consult their fellow classmates or see the teacher.

HOMEWORK

Homework is an essential element to success in Mathematics. Students should expect roughly 30 minutes of homework per evening. It will be checked for completion.

Review and practice are essential to understanding and retaining the information taught. Failure to complete homework will result in a loss of marks and/or disciplinary action.

TESTS

Tests must be written on the day assigned. Missed tests are to be done on the day the student returns unless alternate arrangements have been made.

Students obtaining a mark less than 70% must get the test signed by a parent/guardian. The signed test must be shown to the teacher on the next class.

NOTE: NS Math is a pre-requisite for Health Science, Pure and Applied and Commerce programs in CEGEP.
