

Secondary 5 NS Mathematics (2019-2020)

Teachers: Mr. W. Sanders

Voice Mail: 514-486-1101 ext. 624

Email: sandersw@loyola.ca

Mr. C. Taddeo

Voice Mail: 514-486-1101 ext. 631

Email: taddeoc@loyola.ca

Student Resources:

- Math-Help-Services.com
- Teacher Handouts
- Class notes

COURSE OUTLINE

1. Vectors
2. Real Functions
3. Conics
4. Optimization
5. Exponential & Logarithm Function
6. Trigonometry

Supplies: -3-ring binder, graph paper & loose leaf sheets

-Scientific calculator

- Pencils, eraser ruler and Protractor

Extra Help/Tutorials:

Students experiencing difficulty in the course should attend tutorials whenever possible. Math tutorials are available every day after school in the Mathematics tutorial room and students can also make arrangements with either Mr. Sanders or Mr. Taddeo to meet at another mutually convenient time if necessary.

Mark Distribution

Competency I Reporting: Situational Problem

Term 1 (20%) Term 2 (20%) Term 3 (60 %)	There will be one situational problem per term.
---	---

Competency II Reporting: Reasoning

Term 1 (20%) Term 2 (20%) Term 3 (60 %)	10% Teacher Assigned Homework and MHS 10% Quizzes 80% Tests
---	---

Final Mark for Each Term.

Competency I	Solves a Situational Problem	30 %
Competency II	Reasoning and Communication	70 %

ABSENCES

Students absent from class for any reason are entirely responsible to make up the work missed. They can consult their fellow classmates or see the teacher.

HOMEWORK

Homework is an essential element to success in Mathematics. Students should expect roughly 30 minutes of homework per evening. It will be checked for completion. Review and practice are essential to understanding and retaining the information taught. Failure to complete homework will result in a loss of marks and/or disciplinary action.

TESTS

Tests must be written on the day assigned. Missed tests are to be done on the day the student returns unless alternate arrangements have been made.

Note: NS Math is a pre-requisite for Health Science, Pure and Applied and Commerce programs in CEGEP.
